1 SDMS # 31294 2 3 UNITED STATES ENVIRONMENTAL PROTECTION AGENCY 4 REGION 9 5 In the Matter of : 19 6 Order No. 88-17 H. KRAMER AND COMPANY 1 CHAPMAN WAY 7 EL SEGUNDO, CALIFORNIA, 8 H. KRAMER AND COMPANY AND 9 AERO INDUSTRIES, 10 Respondents 11 Proceeding under Section 106 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 12 as amended by the Superfund Amendments 13 and Reauthorization Act of 1986, (42 U.S.C. §9606) 14 15 I. Jurisdiction 16 This Order is issued to H. Kramer and Company and Aero In-17 dustries pursuant to the Comprehensive Environmental Response, 18 Compensation and Liability Act of 1980, as amended by the Super-19 fund Amendments and Reauthorization Act of 1986, by authority 20 delegated to the Administrator of the United States Environmental 21 Protection Agency (EPA), and redelegated to the EPA Regions. 22 This Order is also issued pursuant to the Bankruptcy Code, 11 23 U.S.C.A. Section 362(b)(4). 24 The Director of the Toxics and Waste Management Division, 25 EPA Region 9, has determined that there may be an imminent and 26 substantial endangerment to the public health, welfare or the en-

vironment because of the release and threatened release of

27

- 1 hazardous substances from the H. Kramer and Company facility at 1
- 2 Chapman Way, El Segundo, California.

3 II. Findings of Fact

- 4 A. Background H. Kramer and Company
- 5 1. The facility, (known as "the Property"), is an abandoned
- 6 secondary metals smelting operation located at 1 Chapman Way, El
- 7 Segundo, California.

- The facility currently consists of several buildings,
- 9 smelting furnaces, a slag pile, baghouse ash, furnace ash, drums,
- 10 cooling pond water/sludge and scrap metal/debris. EPA's On-Scene
- 11 Coordinator and Technical Assistance Team contractor, Ecology and
- 12 Environment, Inc., collected samples at the facility on March 14,
- 13 1988 for testing. Generally, the samples contained excessive
- 14 levels of copper, lead and zinc. High concentrations of beryl-
- 15 lium and cadmium were also detected in some of the samples. The
- 16 sample data is summarized in Exhibit I.
- 3. Respondent H. Kramer and Company ("Kramer") filed a
- 18 Petition for Reorganization under Chapter 11 of the Bankruptcy
- 19 Code in December, 1985 in the United States Bankruptcy Court for
- 20 the Northern District of Illinois, Eastern Division [In the Mat-
- 21 ter of H. Kramer & Co., an Illinois corporation, I.D. #36-1340270
- 22 (No. 85 B 16687 Honorable Eugene R. Wedoff, presiding)].
- 23 4. Respondent Aero Industries ("Aero") has entered into a
- 24 contract with Kramer wherein Aero will raze, dismantle and remove
- 25 most of the buildings and equipment at the Property at no cost to
- 26 Kramer. This contract has been approved by an Order of the
- 27 Bankruptcy Court on March 14, 1988.
- 28 ///

- 1 5. Respondent Aero Industries has indicated an intent to
- 2 purchase the property and mitigate the threat to human health and
- 3 the environment posed by hazardous materials located on or
- 4 beneath the site.
- 5 6. The EPA has designated an On-Scene Coordinator ("OSC")
- for the facility, pursuant to 40 C.F.R. Part 300.
- 7 B. Endangerment
- 7. Population at risk. The site poses a risk to workers
- 9 conducting security and demolition activities on-site and to per-
- 10 sons off-site in the vicinity of the site. Personnel
- 11 conducting site security and cleanup activities may be exposed to
- 12 contaminants in surface soil and at other areas of the site such
- 13 as ash storage piles or drum storage areas. Personnel conducting
- 14 demolition activities may generate significant quantities of
- 15 fugitive dust emissions, thereby posing a threat to on-site
- 16 workers and persons in the vicinity of the site. Heavy equipment
- 17 utilized at the site may track significant quantities of hazard-
- 18 ous materials off-site. An office building at the site is being
- 19 used by demolition personnel, thereby posing a threat to workers
- 20 in this building. Prior to the fencing of the site, the public
- 21 had access to the site as evidenced by the presence of bicycle
- 22 tracks, footprints and graffiti. Contaminants in the surface
- 23 soils and storage areas at the site may pose a threat to
- 24 groundwater beneath the site.
- 25 ///
- 26 ///
- 27 ///
- 28 ///

- 8. Substances of concern. Lead, zinc, copper, beryllium
- 2 and cadmium were detected at the site at levels of concern. Many
- of the samples collected and analyzed by EPA exceeded the Total
- 4 Threshold Limit Concentrations (TTLC), which establish threshold
- 5 levels for the regulation of hazardous wastes in California
- 6 [Title 22, Cal. Adm. Code, Section 66693 et. seq.].
- 7 a. Lead poisoning is one of the most commonly
- 8 reported occupational diseases. Some lead compounds are car-
- 9 cinogens of the lungs and kidneys. Exposure pathways include
- 10 both ingestion and inhalation. Upon inhalation, absorption takes
- 11 place through the respiratory tract and symptoms tend to develop
- 12 more quickly than from ingestion. Lead is a cumulative poison.
- 13 Increasing amounts build up in the body to a point where symptoms
- 14 and disability occur. Lead produces a brittleness of the red
- 15 blood cells, sensitizing them to trauma. Lesions of the kidney,
- liver, male glands, nervous system, blood vessels, and other
- 17 tissues have been observed.
- b. Copper. Inhalation of copper dust has caused hemolysis
- 19 of red blood cells in animal experiments. Copper chloride and
- 20 sulfate have been reported as causing irritation of the skin and
- 21 conjunctivae. Cuprous oxide is an eye and upper respiratory
- 22 tract irritant.
- c. <u>Beryllium</u>. Beryllium and its compounds are considered
- 24 to be experimental carcinogens, tumorigens, and neoplastigens.
- 25 Inhalation of dust containing beryllium can cause severe lung
- 26 damage. Effects have been reported in persons living near
- 27 processing plants and families of beryllium workers.
- 28 ///

- d. Cadmium. Cadmium is a poison to humans. Exposure oc-
- 2 curs by inhalation and other routes. Inhalation of fumes or
- 3 dusts affects the respiratory tract and the kidneys. Cadmium has
- 4 been found to be a teratogen and an experimental carcinogen.
- e. Zinc. Zinc compounds exhibit varying toxicities.
- 6 Workers in zinc refining have been reported as suffering from a
- 7 variety of non-specific intestinal, respiratory and nervous
- 8 symptoms. Ulceration of the nasal septum and eczematous der-
- 9 matosis are also reported.
- 10 III. Conclusions of Law
- 11 A. H. Kramer and Company and Aero are "persons" as defined
- in Section 101(21) of CERCLA, 42 U.S.C. §9601(21).
- B. The property located at 1 Chapman Way is a "facility" as
- 14 defined in Section 101(9) of CERCLA, 42 U.S.C. §9601(9).
- 15 C. Lead, zinc, copper, beryllium and cadmium are "hazardous
- 16 substances" as defined in Section 101(14) of CERCLA, 42 U.S.C.
- 17 §9601(14).
- D. The presence of hazardous substances on and in the soils
- 19 at the site and the potential for those substances to become air-
- 20 borne or for the hazardous substances to migrate to groundwater
- 21 constitutes a "release" or "threatened release" of hazardous sub-
- 22 stances into the environment as defined in Section 101(22) of
- 23 CERCLA, 42 U.S.C. §9601(22).
- 24 E. H. Kramer and Company is a "responsible party" as
- 25 defined in Section 107(a)(3) of CERCLA, 42 U.S.C. §9607(a)(3).
- 26 ///
- 27 ///
- 28 ///

1 IV. <u>Determinations</u>

- 2 Based on the Findings of Fact and Conclusions of Law, the
- 3 Director, Toxics and Waste Management Division, EPA Region 9, has
- 4 made the following determinations:
- 5 A. The release or threatened release of hazardous sub-
- 6 stances and pollutants or contaminants from the Property may
- 7 present an imminent and substantial endangerment to the public
- 8 health, welfare, or the environment.
- 9 B. In order to prevent or mitigate immediate and sig-
- 10 nificant risk of harm to human health and the environment, it is
- 11 necessary that a removal action be taken immediately to contain
- 12 and prevent the release and potential release of hazardous sub-
- 13 stances, pollutants or contaminants from the facility.
- 14 C. The removal measures required by this Order are consis-
- 15 tent with the National Contingency Plan, 40 Code of Federal
- 16 Regulations, Part 300.
- V. Order
- 18 Based upon the Findings of Fact, Conclusions of Law and
- 19 Determinations, EPA hereby Orders the implementation of the fol-
- 20 lowing measures under the direction of EPA's On-Scene Coor-
- 21 dinator.
- 22 A. Kramer and Aero shall immediately cease all razing,
- 23 demolition and salvaging activities at the site.
- 24 ///
- 25 ///
- 26 ///
- 27 ///
- 28 ///

- B. Within seven (7) calendar days of the effective date of this Order, Kramer shall submit to EPA a written proposal for the razing, demolition and salvaging of buildings, equipment and materials at the facility which shall include the following elements.
- 6 1. Scope of work.
- List of equipment and materials to be salvaged
 and their locations.
 - 3. A site diagram or map designating and identifying areas where work will be conducted.
 - 4. A schedule of daily activities.
 - 5. A description of procedures that will be used to disassemble, dismantle, demolish or otherwise salvage items listed in (2) above.
 - 6. A description of decontamination procedures for the items in (2) above for the purpose of limiting human exposure to hazardous substances.
 - A proposal for dust suppression during on-site activities.
 - 8. A proposal for the cleanup of hazardous substances that pose a threat of airborne release to the environment.
 - A site safety plan.
- C. Upon approval of the proposal by EPA, Kramer and Aero may conduct razing, demolition or salvaging activities at the site if such activities are in full compliance with the approved proposal.
- 28 ///

15

16

17

18

19

20

21

22

- D. Within thirty (30) calendar days of the effective date of this Order, Kramer shall submit to EPA a written proposal with a schedule for a site assessment and for the removal, treatment and/or disposal of hazardous substances from the site.
- E. Within seven (7) days of EPA approval of the proposal,
 Kramer shall begin implementation of the proposal. Kramer shall
 fully implement the proposal as approved by EPA within the time
 period set forth in the schedule.

9 VI. Compliance With Other Laws

17

28

///

Respondents shall comply with all federal, state and local laws and regulations in carrying out the terms of this Order. All hazardous substances removed from the facility must be handled in accordance with the Resource Conservation and Recovery Act of 1976, 42 U.S.C. § 6921, et seq., the regulations promulgated under that Act and Section 121(d)(3) of CERCLA, 42 U.S.C. Section 9621(d)(3).

VII. On-Scene Coordinator

EPA has appointed an On-Scene Coordinator (OSC) for the Site
who has the authority vested in the On-Scene Coordinator by 40
C.F.R. Part 300, et seq. The On-Scene Coordinator for the
property at 1 Chapman Way, El Segundo, California for the purposes of this Order is:

Dan Shane
United States Environmental Protection Agency
Region 9
215 Fremont Street
San Francisco, California 94105
(415) 974-8361

26 ///
27 ///

1	VIII. <u>Submittals</u>
2	All submittals and notifications to EPA required by
3	this Order or any approved proposal under this Order shall be
4	made to:
5	Jeff Zelikson
6	Director, Toxics and Waste Management Division United States Environmental Protection Agency Region 9
7	215 Fremont Street San Francisco, California 94105
8	·
9	Copies of all submittals and notifications shall be sent to
10	the On-Scene Coordinator.
11	All approvals and decisions of EPA made regarding the sub-
12	mittals and modifications shall be communicated to Respondents by
13	the Director, Toxics Waste and Management Division or his
14	designee. No informal advice, guidance, suggestions, or comments
15	by EPA regarding reports, plans, specifications, schedules, or
16	any other matter will relieve Respondents of their obligation to
17	obtain formal approvals as required by this Order.
18	
	IX. Access
19	Respondents shall provide EPA employees and other represen-
20	tatives with complete access to the facility at all times. Noth-
21	ing in this Order limits any access rights that EPA or other
22	agencies may have pursuant to law.
23	///
24	///
25	///
26	///
27	///

X. Endangerment During Implementation

The Director, Toxics and Waste Management Division, EPA

- 3 Region 9, may determine that acts or circumstances (whether re-
- 4 lated to or unrelated to this Order) may endanger human health,
- 5 welfare or the environment and may order the Respondents to stop
- 6 further implementation of this Order until the endangerment is
- 7 abated.

1

8

11

16

XI. <u>Government Not Liable</u>

9 The United States Government and its employees and other

10 representatives shall not be liable for any injuries or damages

to persons or property resulting from the acts or omissions of

12 Respondents, their employees or other representatives caused by

13 carrying out this Order. For the purposes of this Order, the

14 United States Government is not a party to any contract with the

15 Respondents.

XII. Noncompliance

- 17 A. A willful violation or failure or refusal to comply
- 18 with this Order may subject Respondents to a civil penalty of up
- 19 to \$25,000 per day in which the violation occurs or failure to
- 20 comply continues, pursuant to the provisions of Section 106(b)(1)
- of CERCLA, 42 U.S.C. §9606(b)(1). Failure to comply with this
- 22 Order without sufficient cause may also subject Respondents to
- 23 punitive damages of up to three times the total costs incurred by
- the United States for site response pursuant to Section 107(c)(3)
- 25 of CERCLA, 42 U.S.C.§ 9607(c)(3).
- 26 B. EPA may take over the removal action at any time if EPA
- 27 determines that Respondents are not taking appropriate action.
- 28 EPA may order additional actions it deems necessary to protect

1 public health, welfare, or the environment.

XIII. Opportunity to Confer

- Respondents may request a conference with the Director,
- 4 Toxics and Waste Management Division, EPA Region 9, or his staff
- 5 to discuss the provisions of this Order. At any conference held
- 6 pursuant to Respondents request, Respondents may appear in person
- 7 or by counsel or other representatives for the purpose of
- 8 presenting any objections, defenses or contentions which Respon-
- 9 dents may have regarding this Order. If Respondents desire such
- 10 a conference, Respondents must make a request orally within 24
- 11 hours of receipt of this Order, and confirm the request in writ-
- 12 ing immediately.

2

13 XIV. Parties Bound

- 14 This Order shall apply to and is binding upon the Respon-
- 15 dents, their officers, directors, agents, employees, contractors,
- 16 successors, and assigns.
- 17 XV. Notice of Intent to Comply
- 18 Within 24 hours of receipt of this Order, Respondents shall
- 19 orally inform EPA of their intent to comply with the terms of
- 20 this Order. The oral notice shall be confirmed within two (2)
- 21 days by written notice to the Director. Failure to timely notify
- 22 EPA of the Respondents' intent to fully comply will be construed
- 23 by EPA as a refusal to comply.
- 24 XVI. Notice to State
- Notice of the issuance of this Order has been given to the
- 26 State of California. EPA will consult with the California
- 27 Department of Health Services, as appropriate.
- 28 ///

1	XVII. <u>Effective Date</u>
2	Notwithstanding any conferences requested pursuant to the
3	provisions of this Order, this Order is effective on the date of
4	execution by the Director, Toxics and Waste Management Division,
5	EPA Region 9.
6	
7	IT IS SO ORDERED on this 7th day of Tine, 1988.
